The money market continues extremely easy at 5 a 6 per cent, with the majority of transactions at the lower rate. The bank statement for the week favors the prospect of prolonged monetary case at this centre. The deposits show an increase of \$4,922,826, and the legal tender notes of \$4,000,902. There is only a trifling increase in the loans of \$509,104, which is suggestive of a limited business in the discount lime. The circulation has increased \$269,816, owing to the steady issue of new national bank currency, and the specie is reduced \$567,905. Our Buenos Ayres Correspondence. Burnos Avars, S. A., Jan. 27, 1866. As I learned that a supplemental mail was certain to-day, I have delayed writing so as to write up to the last

The theatre of war has narrowed to a few square-leagues, and all the forces, the available of four contigu-ous nations, embracing half of South America, are as-sembled within twenty-live miles of the confluence of the rivers Paraguay and Parana. No indications there promises an immediate advance. The Paraguayans have recorded so as to leave all the important movements to be initiated by the Allies. The various passes on the river-have been fortified, and the land side of the fortress largests and the land side of the fortress

THE PARAGUATANE ANNOTING THE ALLIED OUTPOOT.

The allies allowed themselves to be annoyed for a fortnight or more by nightly attacks and depredations, made by the Paraguayans in boats. On the 15th inst. about fifty depredators came over, and again on the 17th inst. eleven boats came over in the early morning, each boat with twenty men, infantry and they were followed by thirteen other boats. They took refuge in a grove and kept it till about noon, and retired with very little loss. At some of these incursions they do a great-

ALLED PREFARATIONS TO INVADE FARAGUAY.

The war of the great rebellion has proved that armies about to swing loses from the base of supply must do secautiously unless the enemy's country is abundant. At Corrientes the allies must carry into Paraguay when they cross the Parama even fodder for their horses and they cross the Parana even fodder for their horses and cattle. There are no pontoon bridges nor steam transports for crossing. Flatboats have to be made in sufficient numbers to allow a large force to cross without delay. Rafts, cances, datboats begin to be gathered, and provisions are accumulating. No one knows yet at what point the river will be crossed, but all things are ordered to be prepared for the invading march. And yet so much remains to be done that it may be a mont be or six weeks yet before a decisive blow is struck.

It is a singular fact that the month of February is an

eventful one and highly fortunate in Argentine annals. It shows that in this climate February is the best month

The chief body of Brazilian troops is under the command of Generals Osorio and Netto, and they are encamped very near the city of Corrientes, their

The restoration of peace to Uruguay has resulted in an unparalleled rate of progress. For the ten months preceding December 31, 1865, the customs receipts amounted to \$2,000,000 silver. In 1865 the foreign vessels in portwere 729, with a gross tonnage of 289,000 tons. In the coasting trade there were 1,468 arrivals. In these ten months licenses were issued for building 338 hours. At new exchange, a philharmonic theatre, a new market, a town ball, a lunatic asylum and three lighthouses in the harbor are among the public improvements of the city. The Argentine Central Railroad is completed westward from Rosario for seventy miles, but as there is a want of engines the road is not yet open to the public.

Last week two hundred tons of copper arrived from Coraoba. This mail steamer will take the largest amount of new native silver to Europe that one ship has carried at once since the days of the viceroyalty of Spain.

In this month thus far, 27th of January, twenty-four vessels have left for the United States, taking with them. 87,738 hides, 11,639 bales of wool, 195 bales of hair, 14 bales nutria skins. From December 24, 1864, to December 24, 1865, were shipped for the United States, 607,861 hides, 417 bales of goat skins, 28,465 bales of wool, 01 bales and 44 boxes feathers, 35,180 skins of water hog.

There are eighteen vessels loading for the United States in this port.
